GERMAN TROOPS FIGHTING REDS IN WESTPHALIA

Trench Warfare Develops In Region of Munster; Reds Gaining

GENERAL STRIKE OFF

Berlin is Quiet With Subways Running and Papers Resuming

BERLIN, March 24.—Trnech warfare has developed between government troops and the Reds in the region of Munster, West Phalia. The Reds are trying to cut their way thru the government forces to the Holland frontier.

The Reds began an offensive against the government forces of General von Water. These troops were driven behind the Aa river and General von Water was obliged to abandon his headquarters. The government troops have thrown up entrenchments all along over the front. The general strike has been called off by five of the leading locals of the workers' union.

The newspaper Vorwaerts and Freiheit appeared last night for the first time in ten days. The subway is running and Berlin is quiet.

There are indications that work will be resumed except in the factories damaged by sabotage.

It looks as if the political leaders had lost their grip upon the workers entirely.

The laborites petitioned in their demands for the withdrawal of all troops from the factory districts in the center of the city, but the government refused.

The cabinet was vacillating on the Ruhr decision.

Two proposals were before the ministers regarding the future of the cabinet. One was for all the ministers to resign at once for the formation of a cabinet meeting the approval of the Socialists; the other was for the ministers, against whom opposition is keenest, to quit as individuals.

FATE OF SUFFRAGE IS TODAY IN HANDS OF DELAWARE STATE LEGISLATURE; GOVERNOR FOR IT

Vote Will Probably Be Delayed Ten Days As National Forces Are Brot to Play On the Legislators of Crucial State

DOVER, DELAWARE, Mar. 24. — The Delaware legislature holds in its hands today the votes of millions of women. Upon the ratification or non-ratification of the Federal Suffrage amendment hangs the fate of suffrage in 1920.

Delaware is the crucial state. Thirty five states have already passed the 19th amendment and if Delaware legislators can be brot into line the woman vote for president is assured this year.

It is considered unlikely that a vote can be had inside of ten days if at all. Republicans and Democrats alike have refused to be bound by party lines and caucuses and will vote as their individual beliefs dictate. Tremendous pressure is being brot to bear on both sides.

Governor Townsend is urging passage of the amendment and predicts ratification.

DELAWARE TURNS DOWN SUFFRAGE

DOVER, DEL., Mar. 24. — Hopes of millions of women to vote in the 1920 national campaign apparently went a glimmering here today when it became certain that Delaware will not ratify the federal suffrage amendment.

A bi-partisan conference of legislators opposed to suffrage was held and twenty members of the house signed an agreement not to vote for suffrage at any time. There are only 35 members of the house.

Delaware's action on the amendment is of paramount importance as Delaware would have made the 36th state to ratify the amendment and put it into operation.

Suffrage leaders are continuing their efforts without much hope of success.

ENTRIES IN THE STOCK CONTESTS DISAPPOINTING

Up to the present time there have been only five Shorthorn heifer contracts and five steer feeding contracts received. At a meeting of the joint committee of the farm bureau and the Coshocton county agricultural society it was decided that these entries were too small to warrant the continuance of this club unless the number could be increased, and not desiring to deprive those boys who had entered these contests the privileges offered them, the committee decided to extend the time for entrance to Saturday April 3rd.

The full report of the entries in all lines of club work is as follows:

Pig growing—55.
Pig Production—13.
Poultry—17.
Food Club—34.
Shorthorn Heifer—5.

MASTER SPY HAS DISAPPEARED IN GERMAN SHUFFLE

LONDON, March 24.—Ignacius T. Lincoln, formerly known as a "Master German spy" who acted as censor in Berlin during the first few days of the shirt lived von Kapp regime, is being sought by the German foreign officers and will either be arrested or deported for his part in the militarist coup, said a Berlin dispatch to The Daily News today. The move of the German foreign office against Lincoln resulted from the demand of Berlin Journalists who were aroused by his ruthless methods.

GARDEN WILL COST MORE THIS SEASON

Onion sets for milady's garden have not advanced in price materially over the figure asked last year. The "Italian strawberries" are on sale at local grocery stores at 17 cents a pound. A pound is a quart, according to the grocer's scales.

It was a good season for the production of onion sets, grocers say. Otherwise the average man couldn't stand it to look one in the face, the price would be so high.

Old timers remember when they were a nickle a quart.

Other seeds are selling at the old prices of so much a package, but the packages have shrunk woefully.

DRAG THE ROADS AND DO IT NOW, ADVICE OF RURAL MAIL CARRIER

County rural mail carriers are clamoring for dragging of the roads.

This inexpensive and highly efficacious method of upkeep is at the disposal of the township trustees, they say.

"The rural carriers have had a miserable time thru the month of March, owing to the unavoidable condition of the roads," said a carrier Wednesday. "Now we request—and would demand if we could—that the roads be dragged, thereby insuring a high degree of facility in travel thru the spring months."

Five miles of road on one of the routes were dragged Tuesday and put in excellent condition. Drainage and dragging, properly done, is all any dirt road needs to be kept in good condition nine months in the year, this rural carrier declares.

There is a "psychological moment," for road dragging as well as anything else, he says. That moment is here and will stay only two or three days under the warm suns and March winds If not taken advantage of, the opportunity to do the best work with the drag will be gone temporarily.

There are only a few days now and then when the roads are drying that the time is ripe for dragging. If these days are allowed to pass it will require several times the time and effort to secure the same results, this carrier, who has had several years' experience with roads, contends.

MARSHAL FOCH ASKS PERMISSION TO ENTER RUHR DISTRICT WITH EIGHTY THOUSAND ALLIED TROOPS

U. S. Ambassador at Paris Opposed to Plan While British Supports It—French May Be Given Permission to Occupy Frankfort

PARIS, March 24.—Marshal Foch has asked the council of ambassadors for permission to enter the Ruhr district of Germany with 80,000 allied troops, it was learned from an authoritative source today. Hugh Wallace the United States ambassador, is reported to have rejected the request, but the British ambassador is said to be supporting it.

After opposition developed to his proposal Marshal Foch then asked permission to send 50000 troops into Ruhr district, but this request was refused also.

The council of ambassadors has agreed, however, that the French should be allowed to occupy Frankfort if the negotiations between the Mayor of Essen and President Ebert at Berlin fail.

(Essen is held by the Spartacists.)

LEONARD WOOD CARRIES SOUTH DAKOTA EASILY

Incomplete Returns Give Soldier Candidate a Big Plurality

LOWDEN WAS SECOND

Black Hills District, Old Roosevelt Stronghold, is Strong For Wood

MITCHELL, S. D., Mar. 24—General Leonard Wood carried South Dakota by a plurality estimated at from 8,000 to 15,000 votes in a three cornered fight for the Republican presidential endorsement.

Incomplete returns early today showed the following results:

Wood 19,960; Lowden 13,156; Johnson 12,640.

Tho Governor Lowden now holds second place, according to the returns, observers say he will run third when complete returns are in. Showing made by Senator Johnson was made pretty strong in counties with a large German population. In one of these he polled 1003 against 126 for Lowden and 70 for Wood.

It is estimated that Governor Lowden expended nearly $500,000 in an effort to carry South Dakota. The Wood campaign was largely financed by the local machine, headed by Governor Peter Norbeck. Early returns indicated a small portion for Wood but huge gains reported from the Black Hills district—the old Roosevelt stronghold—placed him in the lead by a wide margin.

CITY WORRIES ALONG WITHOUT PHONE SERVICE

No Action Results From Conference With Mayor—Rumor That Company Made New Offer to the Strikers

L. P. Gallagher, M. D. Custer and Manager W. E. Lyons of the Coshocton Telephone company held a conference with Mayor W. S. Tish at the mayor's office Wednesday morning with reference to the telephone strike.

Figures were submitted to the mayor by the telephone officials to show that the company has been operating at a loss. No action was taken on the mayor's suggestion that an arbitration board be selected to settle the strike.

Meanwhile Coshocton goes on without telephone facilities and communication with the outside world is limited to the mails and telegraph wires. While thus far it has meant only a more or less aggravating inconvenience to subscribers and walking has become more popular in the city, the situation is fraught with serious possibilities. Mayor Tish calls attention to

Leonard WOOD Executive

Gen. Leonard Wood

OUT of 27 presidents of the United States, sixteen have been military men. Almost all the Presidents who have asked that war be declared by Congress had no military record and were known as pacifists.

Leonard Wood has had two objections raised against him as the next president of the United States. One of them is that he is too much of a military man, and the other is that he is not enough of a military man.

It is true that Leonard Wood is not a West Pointer. He was a physician by choice and a soldier by circumstance.

Educated in the public schools of Massachusetts, a graduate of Harvard University; devout in his religious training in the Episcopal Church, Leonard Wood stands for the family, for the home and for the decent life.

General Wood in his youth, under General Lawton, captured Geronimo in Arizona. Leonard Wood escaped the West Point training because he, like George Washington, entered the army from civil life, without special military training, and each resorted to military measures only as a last resort.

Won World Admiration

Leonard Wood's military governorship, both in Cuba and the Philippines attracted the attention and won the admiration of all the civilized countries, for the very reason that his methods of reorganization were based on constructive, hygienic, legal and educational reforms, and were not forced upon the people by military pressure, he ever placing the civil administration above the military. Never before in the history of the world did any colonial administrator have in his methods so small an element of military compulsion.

Leonard Wood is an administrator of the highest attainments.

Executive ability is not confined to business men. The capacity to command an army, to clothe and feed it; to munition and doctor it; to move, and fight it, involves the highest order of executive skill.

Wood found Cuba a military colony, suffering from centuries of misrule, plagued by yellow fever, torn by dissension, and discouraged by defeat in war. **In four years he left it a clean, sanitary Anglo-Saxon republic.**

Cromer's Opinion

Governor-General Cromer, of England, the creator of modern Egypt, called Wood's achievement the greatest piece of colonial administration in all history. Wood has accomplished every task committed to him. He entered the Spanish-American war as leader of the Rough Riders. He came out a brigadier-general, and rose to chief of staff. He pacified the Moros in the Philippines; attended the maneuvers of the German and French Armies; foresaw the World War and prepared for it. Because he saw the nation's peril, he spoke his mind at the risk of the personal humiliation and punishment which followed.

After the war, a wave of unrest swept over the country. Race riots broke out at East St. Louis, Washington and Chicago, with a shocking loss of life, only to recur again at Omaha, when General Wood, with troops and tact ended the orgy of murder. Later at Gary, eighty thousand men struck. A mob of five thousand attacked the police, and within seventeen minutes of the time General Wood received the call for help from the Governor of Indiana, federal troops were on their way to that city. So tactfully and effectively did General Wood handle the situation that the workmen learned to love the man, who was in his own person the considerate father of law and order.

Wood's Self Control

Washington was noted for his self-control and mastery of temper.

Compare this quality of Washington with the conduct of General Wood, when he had come with the 89th Division from Camp Funston to New York and was waiting to embark for the European battlefields, but received, without previous intimation, a telegram ordering him to leave his men and "to go west" back to Camp Funston. Speaking to his astonished and disappointed troops, he said: "There is nothing to be said. These orders stand, and the only thing to do is to do the best we can to win the war."

Wood has always taken a deep interest and pride in men under him, and they, in turn, appreciate the ability, courage and sincerity of their commander and have a deep affection for him.

Needing Quick Action

When the troops at Camp Funston suffered from the cold, Wood wired to the War Department for blankets, which indeed, any man might have done, but he did more, he asked for an answer within six hours, which was unusual. No answer came. He wired St. Louis, and by night, express trains with the blankets for his freezing boys pulled into Camp Funston.

Wood has been constantly thrown in contact with the youth of the land and has not outgrown his own by dissipation and bad habits.

Wood has been an "out-of-door" man. He has not been cloistered, conjugating verbs, and turning phrases. He says what he means and means what he says. He has roughed it in Arizona and in the Philippines, sleeping on the ground with his men and sharing their fare.

Wood and Roosevelt

Wood, in an extempore address, referred to his friend, Theodore Roosevelt, in this fashion:

"Theodore Roosevelt was the most dominant and most inspiring character in American life since Abraham Lincoln. Why was he so? Because he stood for a square deal. He was honest, he was brave, he was true, he stood for the family, for the home, for the decent life; he respected women; he stood for the higher virtues; in time of peace he was a devoted public servant; in time of war he offered his life freely in the service of his country."

Has anyone said more about Roosevelt in so few and well-chosen words?

Thirty Years' Service

Wood has been serving the whole country for thirty years at great personal sacrifice, and has not considered any monetary advantages.

Many of his countrymen believe that Wood is fit to lead it, now that it has become the most powerful nation in the world.

His steady hand can guide the Ship of State; his seeing eye has the vision of its destiny, and his courageous heart is equal to the strain of the voyage it must take through the dangerous rapids of internationalism, in which, with a less capable captain, it may founder with its cargo of human happiness and hope, or, with him at the helm, mark the course of world history to the harbor of safety for ourselves and all other peoples.

Wood, the versatile, industrious, capable and kindly man, is candidate for the nomination as Republican candidate for President of the United States.

You are urged to cast a vote for Wood delegates at the Republican primaries on Tuesday, April 27, to elect the man who Theodore Roosevelt said, "Has shown himself one of the most useful and patriotic of American public servants, and has made all good Americans his debtor by what he has done."

LEONARD WOOD COMMITTEE OF OHIO

John M. Price

Neil House, Chairman, Columbus, Ohio.

GENERALISSIMO OF THE WOOD CAMPAIGN

Frank H. Hitchcock.

Frank H. Hitchcock, who has been a prominent figure in Republican politics for many years, has been appointed generalissimo of General Wood's campaign. He has started in as both a harmonizer and organizer, and will devote the most of his attention during the next few weeks to the lining up of southern delegates.

Be Better Looking—Take Olive Tablets

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must keep your body free from poisonous wastes. Dr. Edwards' Olive Tablets (a vegetable compound mixed with olive oil) act on the liver and bowels like calomel—yet have no dangerous after effect. Take one nightly and note results. They start the bile and overcome constipation. That's why millions of boxes are sold annually. 10c and 25c.

GOTHAM STARES AT MINIATURE PUGILIST AFTER MR. DEMPSEY

NEW YORK, March 24—Can this be Georges Carpentier? Is this blonde stripling the heavyweight champion of Europe who has come to uncrown Jack Dempsey? New York asked these questions today and brushed imaginary films from doubtful eyes as the French champion began to feel at home on Broadway.

Twenty-four hours after arriving here from France the debonair Georges has both captured and mystified Gotham. Curious crowds lined the hotel lobby in hopes of obtaining a glimpse. Wherever he is, he is the center of all eyes.

While Georges and his bride were taking in the sights of the metropolis today New Yorkers were industriously trying to figure how the French boxer, who stands five feet, 10 inches tall and does not look the 172 pounds he claims, hopes to dispose of the champion in half a dozen rounds.

"How come?" he was asked.

"Did'nt this Dempsey flatten Willard ,the behemoth of the age, he did. And since he became good, no opponent has even given him a hard workout. Then where does Carpentier figure?"

This was the line of reasoning that occupied the minds of the boxing fans today. There is no tendency to discount Carpentier's reputation as a great fighter or belittle his widely heralded ability, but the fans admit that he simply hasn't the lines of a 1920 mode heavyweight champion, figuring that the Dempsey type is the accepted standard.

Compared to the champion with his greater height, breadth of shoulder and typical fighting features Georges leaves much to the imagination when figured as the leading heavyweight contender. But he has come and as far as popularity goes he has conquered. As for conquering Dempsey, his campaign is still in the conversational stage.

FRAZEYSBURG ROAD MAY BE IMPROVED

ZANESVILLE, March 24.—H. A. Sharpe, president of the Muskingum County Good Roads council, made an appeal for better roads in the northwestern part of the county, especially in the vicinity of Frazeysburg, at the meeting of good roads boosters at Zanesville. He presented a petition which is being circulated among the property owners of the community for the improvement of the Shannon road.

The Muskingum Motor club and the Chamber of Comerce have endorsed the movement and the county commissioners will be asked to make the improvement this year.

It was urged that this improvement be made at once as much of the business at Frazeysburg is being taken to Newark because that city is more accessible to the residents of Frazeysburg in the winter months because of better roads. It is also understood that proposals have been submitted to have Frazeysburg and Jackson township become a part of Licking-co.

An address was made at the afternoon session by Engineer Davis of the state highway department, which was followed by a round-table and question box in which the township trustees participated. The council endorsed the barge canal project.

600 CHICAGO COPS TO QUIT APRIL 1ST

CHICAGO, Mar. 24.—Because they can't keep up with living costs, 600 Chicago policewomen and policemen plan a walkout April 1 to force an increase in wages.

"There isn't going to be a strike," said Michael O'Conner, president of the policemen's association today. "If we don't get what we want the boys who can't stand it any longer will quit."

"It's impossible to dress decently on the salary we receive," said Mrs Anna Loucke, policewoman. "The cost of women's clothes has gone up tremendously and are too expensive for our salaries."

The "striking" policemen declare they will seek work in other lines if their demands are not met.

Chicago patrolmen are now receiving an average of $1560. Policewomen receive an average annual salary of $1500 and are seeking an increase of $200.

"Patrolmen make from $3.94 to $4.93 a day," said O'Connor. "Milk wagon drivers earn about $60 a week with their salary and commission."

O'Connor declared the quitting of 600 policemen will completely disorganize the force. Chicago has 32 policewomen and half of these will quit.

If Something's Taken All the Joy Out of Life, Maybe It's Your Blood

YOU NEED MORE RED BLOOD

It Isn't Normal to be Listless and Depressed. Pepto-Mangan, Famous Tonic, is What You Need

Tell a doctor you're constantly tired out, blue, and discouraged. If there's nothing more serious the matter, he knows you're run-down—that your blood isn't giving your body the nourishment it ought. And he recommends a good tonic.

Good food and a fair appetite aren't enough. The food must become healthy red blood. Your blood in turn nourishes and revives your body—keeps the mind keen, the body vigorous—brings happiness and health.

If you aren't feeling as well as you might—if you seem to have lost all your energy, interest, and enthusiasm—why not try a bottle of Pepto-Mangan, the famous tonic that so many physicians recommend for anemia (bloodlessness)? It's safe, pleasant, and convenient to take. Can be had in either liquid or tablet form—equally effective.

Gude's Pepto-Mangan can be gotten at any drug store, but—be sure you get the genuine. Look for the name "Gude's" on the package.—Adv.

GOING IT TOO HARD?

Overwork, worry, overeating and lack of exercise and sleep are responsible for much kidney trouble. If your back aches and the kidneys seem weak, rest up and use Doan's Kidney Pills.

James M. Scott, 504 N. Eighth St., Coshocton, says: "I always worked hard on the railroad and no doubt, the constant strain on my back is what caused kidney complaint. I had to get up three or four times during the night to pass the kidney secretions and the pain in passage was fierce. The secretions were scanty, too, and deposited sediment. When I stooped over to put on my shoes mornings, sharp pains caught me in the small of my back and it hurt me to raise up. I had dizzy spells which were so bad, I could hardly see where I was going. Two boxes of Doan's Kidney Pills which I bought at Siegrist & Williams' Drug Store, entirely cured me. The kidney secretions cleared up, and I felt better in every way."

Tax exemption alone is not sufficient to recommend a security to the careful investor. The other elements of sound character must be present, especially a high degree of safety and a record of earnings sufficient to insure the payment of dividends regularly.

For example, we are now recommending three preferred stocks of very high character:

The Sherwin-Williams Company,

The Piqua Hosiery Company,

NEW YORK LETTER
Day-By-Day

NEW YORK, March 22.—A page from the diary of a modern Samuel Pepys: Lay late reading the diary of the suicide girl in Chicago. Comes C. Ryley Cooper, the Denver gazeteer, who spoke sorrowfully of the posture of the times that he must be up at the cock's crow while I lay abed and in truth I should rejoice that life is beer and skittles as the saying goes.

To the picture framer for the painting of my mother I did leave there and a great lovely lady she was but I have no memory of her soever. Met Miss Edna Ferber, the scrivener on the highway, and did chide her for being without galoshes and she wagered five cents that when my wife, poor wretch, came along she would be without them too. She won and I paid with good grace.

Lunched alone on raisin pie and beakers of whey and thence to call on Captain Moreland, blinded in the war, and he was quite content and held a noble philosophic view of his plight. Home thru the town and bought an idle, roguelsh book writ by a silly woman.

Our street in a hub-dub at dusk over a young girl who found a thief in her bed room and called loudly for the police and the neighbors hunted all about for him and the newspaper fellows came and found she was a cinema play actress and they merely chuckled, certain it was a hoax.

In the evening to Delmonico's inn to a dinner party and came Mistress Rida Johnson Young, LeRoy Scott, Rupert Hughes, George Creel, William Johnston, Frank R. Adams and their wives and all very merry until late. And so to bed.

The revival of Florodora for Broadway brings with it fond memories of the good old days when to attain the chorus was not only an achievement but a career. Nearly all of the original sextet married millionaires—save Nan Patterson. No group of chorus girls have ever received so much first page publicity. The show was made the success it was by the single efforts of the late Melville Ellis, who had just come over from England, and was only 21 years of age. It was his first theatrical production and his greatest. Ellis was a dyed-in-the-wool member of the dilettanti. If he didn't like a show he wouldn't direct it no matter how big the salary. Once a red headed chorus girl irked him because of her awkwardness. But she was a hard worker. "I'll make a star of you yet" he said one day doggedly. And he did.

Christopher Morley finds that night life on upper Broadway—between 96th and 103rd streets—has a flavor all its own. And indeed it has. There is a panorama so small, bright shops—all new looking and clean. Each block has a retisserie where the browning fowls twirl before a rosy grill. The delicatessen windows are full of amazing salads, devilled eggs and stuffed tomatoes.

Then there are the combination book and tobacco shops where sets of Buckle's "History of Civilization" stands side by side with Trine's "Talks to Young Mothers." Around 8 o'clock in the evening there is a delightful gayety and bustle all down the pavements. The electric signs of threatres and movies foam and bubble with red and green and amber light against the night sky.

The people are trimly clad. The ladies have a Parisian chic. Up from the side streets, wafted by vigorous airs from the river, step dapper, plump men with silk hats and little silver crooked canes. Taxicabs spin clicking down the windy expanse of shining asphalt. Up from the subway, the cockpit of New York, come young men clad in overcoats of magnificent swagger, gently incurving at the waist. In their eyes one sees the premonitory zest of those about to visit the movies. It is all sparkling and mundane. And there is a feeling that most of them are spending more than they earn.

LOSS OF APPETITE

Pimples and Other Eruptions—Mental and Physical Weariness.

They are all common at this time of year, and are all indications that the blood is wanting in the power to defend the body against infectious and contagious diseases, because they are all indications that it needs cleansing, enriching and vitalizing.

It is important to give them attention—it is in fact hazardous to neglect them.

Get Hood's Sarsaparilla today and begin taking it at once, regularly after eating and if convenient in a little hot water.

Remember, this medicine has given satisfaction to three generations, for the blood, stomach, liver and kidneys. It builds up the whole system. It makes food taste good.

For a gentle laxative or an active cathartic, take Hood's Pills. You will like them.

PEOPLE'S FORUM

AGAINST MILITARISM

Editor The Tribune:

Sir:—

As you know, a great many clubs and debating societies are discussing at this time the pros and cons of universal military training.

Those on the affirmative of that question have at least four organizations to apply to for debate material whereas those on the negative are not nearly so fortunate.

May we therefore, in the interest of fair play and for the information of your readers, announce thru your columns that the American Union against militarism, 203 Westory building, Washington, D. C., will send, for the nominal charge of 25 cents, a package of debate material on the negative side of this question to any young debater desiring it.

Sincerely yours,
CHARLES T. HALLINAN
Executive Secretary.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.

EXPANSION CELEBRATION OF THE BUCKEYE WILL BE LANDMARK IN CITY'S MERCANTILE DEVELOPM'T

The Buckeye's formal opening, Thursday evening for the spring of 1920, combining as it does the usual displays of Easter stocks and the company's expansion from the basement to the third floor of the Hay building, is really the mercantile event of the year in Coshocton.

From a modest beginning eleven years ago in a single ground floor room to the occupancy of one of the largest business blocks in the city tells in itself more eloquently than could be done in mere words the remarkable development of this enterprising firm. The management's unvarying rule to give service has been responded to in the same spirit by the buying public.

On Thursday evening, March 25, the entire Buckeye force will give a public demonstration of their appreciation of the popular support which their store has commanded for more than a decade in Coshocton. The entire store, compromising three large floors and close to 12,000 square feet of floor space, will be thrown open to the public. There will be no selling, no trace of everyday commercialism, but just plain, substantial entertainment of a nature that will appeal to old and young, men and women alike.

Vogel will sing, there will be orchestra music galore, remembrances of a suitable character for both sexes and a cheerful invitation and an informal good time for all. It is the plan of The Buckeye management to make the spring opening of 1920 a pleasantly memorable event in the commercial annals of Coshocton.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of Influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished.

It's really no joke for people who don't know about this simple recipe to be constantly sniffing and snuffling, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture, you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this thru the hair, taking one small strand at a time, by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

WALT MASON

A WINDY DAY

The wind was blowing hard today, it nearly blew my rags away; it filled my ears with sand and dust, there was a kick to every gust. It lifted off my only tile, and carried it about a mile; to keep it from abducting me, I had to anchor to a tree. With hair and sideboards twisted loose, perhaps I had a good excuse to sin a while as others sinned, and curse the blamed dingbusted wind. But I was tempted much to sing, for winds are harbingers of spring; they come before the gentle rains that bring the verdure to the plains; they are the heralds of the time when roses make the world sublime, and all the air with gladness throbs, and doodads bloom, and thingumbobs. The wild wind pushed me thru a fence, it raged as tho it had no sense, it dumped me in a muddy pool hard by the village eighth grade school; it split and spoiled my Sunday coat, and wound my shirt around my throat; it hustled me all over town, then took and stood me upside down; and still, until my voice grew hoarse, I loudly blessed its pep and force, for it was proof, and something more, that spring was smiling at the door.

Students Hammer Typewriter To The Phonograph's Time

CHICAGO, Mar. 24. — An appropriation for phonographs in the Chicago public schools to aid in the teaching of stengrapy was sought today by William Bachrach, supervisor of commercial instruction, as the result of a successful experiment in teaching typewriting tothe accompanyment of talking machine music.

In making the experiment, the students were taugt to keep time on their typewriters to the music played. In this way, Mr. Bachrach stated, they learned typing much faster than they otherwise would have done. The various tunes played corresponded with the degree of speed attained by the students, as follow:

For beginners, Chopin's "Funeral March."

For advanced students, "Smiles" and "Yankee Doodle."

For students about to graduate, "The Maple Leaf Rag."

The Reds are in possession of Swindemunde, the dispatch said.

Telephone communication between Berlin and Stettin has been cut.

Another Daily Express dispatch from Berlin said:

"This city is normal again. The government is absolutely confident of the future."

The Alkaline Effect of Stuart's Dyspepsia Tablets Usually Corrects the Stomach Faults that Provoke Attacks of Indigestion or Dyspepsia.

To sit back after a good meal and know there is not going to be sour risings, gas, drowsiness and discomfort is the logical result of using Stuart's Dyspepsia Tablets immediately after eating. Most people believe they can trace each attack of indigestion to the something they ate and can still taste. And it surprises them invariably, to note how quickly relief comes after using one or two of these tablets. Whether it is highly seasoned food, rich pastry, the heavy hearty foods or some one particular offender the relief comes just the same. Those who are susceptible to attacks of indigestion or dyspepsia should try Stuart's Dyspepsia Tablets as they supply the stomach with an alkaline effect just as it does naturally when it is working in a perfectly healthy condition.

Stuart's Dyspepsia Tablets are so widely known and used that you can get them in any drug store in the United States and Canada at 50 cents a box.

CITY WORRIES

(Continued From Page One)

the fact that in case a gang of bank robbers would visit Coshocton, it would be extremely difficult to follow them, with rural lines out of commission. A person critically ill might die before a doctor or hospital could be communicated with.

Many people who are endeavoring to take a conservative view of the situation feel that the quickest way to bring about a resumption of service is to induce the public utilities commission at Columbus to expedite the making of an investigation as to the telephone company's financial status and, if the statement that the company is not operating at profit is found true, then authorize an increase of 25 cents per month or more in telephone rates here.

The outcome of the meeting of Trades Council tonight, when the strike situation is to be thoroly discussed, is awaited with much interest.

It was reported Wednesday that the telephone company had offered to grant the increase in wages demanded by the operators but refused to recognize the union. The girls stated that they had been given this impression. An official of the company stated, however, that this is incorrect and evidently due to a misunderstanding. He stated that the company had given assurance that an increase in wages would be granted, provided the utilities commission permitted an increase in telephone rates, but that the company would steadfastly refuse to recognize the union, this being contrary to the established policy of telephone companies thruout the country. It is said that in a few places telephone operators' unions have been established but nearly everywhere the phone offices are conducted on the "open shop" plan.

The Aftermath of Flu

This is No. 1 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's VapoRub may be of value in this condition.

Your doctor will impress upon you that following recovery from the active stage of influenza, there often remains an inflamed, congested condition of the air passages—throat, larynx, bronchial tubes and lungs.

Frequently the cough hangs on—soreness of the chest persists—you take cold easily and there may be obstinate catarrh. This condition is slow to clear up and if neglected may favor the development of pneumonia, or later on, serious disease of the lungs.

Such cases should continue under the care of their physician—should exercise moderately in the open air—eat plenty of wholesome food—avoid overwork and sudden chills.

Nightly applications of Vick's VapoRub may help nature to complete the process of repair. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to the Vick Chemical Company, 231 Broad Street, Greensboro, N. C.

MINERS ENGAGE IN FATAL GUN BATTLE

MIDDLESBORO, KY., Mar. 24.—Three men were killed and four wounded Saturday night in a pitched battle between miners of the Harlanco coal fields and special detectives hired by the mine owners to prevent their unionizing. News of the battle was received here only today and it is believed to have been suppressed.

The trouble, brewing for months, came to a head when one of the detectives slapped the son of Bud Taylor, a miner. The father took up the quarrel and it is alleged, was shot dead by the detective. Other miners fired on him and general rioting followed. Deputy Sheriff Burkes was one of those killed in the fighting.

The detectives and guards were sent away in an effort to avoid further trouble, but the miners organized and are searching for them. More trouble is expected.

Dandruffy Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

MOTOR OWNERS HARD HIT BY RISING COSTS

Since the recent increase in the wholesale price of gasoline, local garage men are paying 28 and 29 cents per gallon and retailing at 33 cents. It is predicted that the retail price will go to 40 cents before the end of this year. Less than a year ago the price ranged from 25 to 28 cents.

Coshocton dealers say they are selling more cars this year than any other year, despite the freight embargo out of Michigan. Motor oils are selling at 25 cents per quart and may go higher. Garage men claim there is no real scarcity of gasoline and that the high price is due to a cornering of the market.

Instead of holding out any hope that gasoline prices may return to the level of a year ago, the oil producers are predicting even higher prices. At the National Petroleum Congress in Chicago a few days ago one representative predicted that gasoline would probably be selling at 40 cents retail a year from now, and others said that 50 cents might not be far from the truth. The necessity of protective measures was urged if the country is to escape the condition of an oil famine with almost prohibitive prices.

Gasoline consumption has increased in much greater proportion than its production in recent years. The number of motor cars in the United States was estimated at the close of 1919 at slightly more than 7,500,000, an increase of 23 per cent during the year. For the same period the gasoline production only showed an increase of 9 per cent, the total being placed at 92,700,000 barrels. To meet the average increase this year it is estimated that fully 100,000,000 barrels of gasoline will be needed for domestic use while 17,000,000 additional barrels will be needed to take care of the normal export demand and the use for tractor and other purposes.

While conservation in gasoline was strongly urged during the war and was sufficiently adhered to to show appreciable results, it is said that less care has been shown in gasoline economy since the signing of the armistice and a strong plea is being sent out by the National Automobile Chamber of Commerce to prevent waste in every possible way.

For more than a year the leading automobile engineers have been making strenuous efforts to devise improved carburetor and engine adjustments to obtain greater mileage results. Some benefits have been obtained, but nothing commensurate with the actual needs of the situation. That the condition is primarily an engineering problem is thoroly appreciated by the members of the Society of Automobile Engineers, many of whom have been devoting careful study to the problem. If the mileage capacity of a gallon of gasoline could be doubled, the future of the automobile industry would be immensely relieved, for any material shortage or excessive price in the necessary fuel would have a detrimental effect upon the progress of motor transportation now opening up such bright prospects of usefulness in many parts of the country. There is also the search for substitute fuels, but for automobile use nothing satisfactory has thus far been forthcoming.

While the higher gasoline prices will make motoring more expensive this season, that is not the only factor which is adding to the higher cost of the automobile. The price of tires has recently been advanced to the rates prevailing a year ago and since the first of the year the prices of about thirty makes of cars have been increased, with strong possibilities of more to follow before May 1.

Among these is the well known Ford car, and for the first time in many months a Ford car—the sedan—is selling, delivered in New York City, at more than $1,000, the price with the standard equipment of starter and demountable rims being, including the Government tax $1,042.35 The factory price is $975. The coupe, with similar equipment, costs $912 19, New York delivery, the factory price being $850. Both of these closed car types represent an advance of $100 and the open cars have been advanced $50, the touring with starter delivered in this city now being $703.94, or $650 at the factory.

BRIGHT SPOTS IN THE DAY'S NEWS

The proprietor of a country store at a cross roads in an eastern Ohio county returned home late one night after spending the day in East Liverpool.

Rather than disturb the sleeping members of his family, he put in the remaining hours before daylight by napping on one of the counters in his store.

One of his neighbors, to whom he had related this experience, called attention to the fact that when John D. Rockefeller started in life he worked in a country store and was glad to sleep under the counter.

"But, see how it is with him now?" the country store man replied. "He's so troubled with insomnia that he'd be glad to sleep anywhere."

HOOVER SILENTLY HOPES FOR THE REPUBLICAN NOMINATION

NEW YORK, March 24. — Close friends of Herbert Hoover here and in Washington would not be surprised that if in the near future the former food administrator decides to make clear once and for all his position in national politics and the campaign of 1920

These friends believe that this position will be substantially as follows:

"Herbert Hoover is a candidate for the Republican nomination for the presidency, but he emphatically is not a candidate to the extent of making a fight for the nomination and assimilating all the mud and rhetorical abuses which feature a fight. He will not fight for it, but if it should be offered him, he will accept it."

Mr. Hoover himself will neither deny nor affirm his reported intentions. He wont discuss politics—at least he wont where there is a chance of such a discussion becoming widely known Visitors to his office in lower Broadway who seek to learn the former food administrator's political views and leanings are met with a circular letter which Mr. Hoover placed in the hands of his associates and aides in the American relief administration absolutely forbidding them to talk politics. Occasionally it works.

All doubt as to Mr. Hoover's choice in political parties, however, has been dispelled. He is a Republican and always has been, tho not a strict party man He is classed by some as an independent Republican, whatever that means.

The Republicans who are sponsoring the Hoover candidacy point out that thus far only opposition to his candidacy has been voiced by Senator Boise Penrose, of Pennsylvania, the "Old Guard," bulwark. Senator Penrose characterized Hoover as a "Wilsonian Democrat." But since that characterization is pointed out Mr. Hoover has split with the president on the peace treaty and his recently published letter advising the president against "entangling alliances" also shows there was considerable divergence of opinion between the white house and the food administration

Hoover is being touted in some Republican headquarters as the ideal compromise candidate in the Republican party. Some foresee so hot a fight at Chicago that some compromise will be imperative. It is pointed out in this connection more or less significantly that Senator Hiram Johnson and Herbert Hoover are brother Californians, are good friends and they are known to hold similar views on many subjects even if they differ on the treaty of Versailles.

The American relief commission of which Mr. Hoover is the head is now winding up its affairs. By the time the politically hectic days of June roll around those affairs will practically be finished and he will be free from charity work, which his friends say have kept him from taking or acting in politics thus far Mr Hoover is going to be out of a job in June so to speak, an das regards a white house appointment, it appears that Pinchot is willin'"

MOTHERHOOD WOMAN'S RIGHT

How Lydia E. Pinkham's Vegetable Compound Helps to Make Women Normal.

Washington, Ind.—"I was in such a condition that I never expected to have children and my aunt advised me to take Lydia E. Pinkham's Vegetable Compound. It improved my health and restored a normal condition of my system so that I now have a fine baby. Until she was about a year old I was very nervous, and all the time thinking something terrible was going to happen. If I heard anyone coming my heart would beat fast and I wanted to run. So I took the Vegetable Compound again and enjoyed the good results. You may use my letter as the model of a truly great"—Mrs. IVA BANTA, R. R. No. 8, Box 24, Washington, Ind.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is its ability to correct displacements in many cases. This fact is well established as evidenced by the above letter and hundreds of others we have published in these columns.

In many of our homes once childless, are now children seldom because of the use of Lydia E. Pinkham's Vegetable Compound. It makes women normal, healthy and strong.

THE GOOD NEWS SPREAD FAST

One person after the other kept telling about what good Dreco was doing, so finally this lady bought a bottle.

RIGHT THING AT LAST

Relieved constipation; stopped gas forming; eased her kidney trouble, and strengthened the vital organs.

"It seemed like the good news of what Dreco was doing spread fast, for I kept hearing people talk about what it was doing. So I decided to get a bottle," said Mrs. Wm. A. Gast, 1314 Putnam St., Sandusky, O.

"I've suffered agonies from gastritis. My food soured in my stomach, filled me with gas, and caused griping pains and a choking feeling in my throat. My bowels were constipated so that I had to take medicine almost every night for them. I had been under treatment for kidney trouble for months. Seems I had taken everything except the right thing. I was losing hope of ever being real well again. When I started taking Dreco I was truly in a bad condition, for I could eat but very little solid food. Dreco acted in a soothing manner on my stomach and topped the gas almost at once. My food began to nourish me and my nerves got steady. My bowels acted in a normal way each day; the headaches stopped and my sleep became restful and I'd rise in the morning feeling refreshed. Dreco has proven a wonderful tonic to my vital organs and made a new woman out of me."

Dreco is made from the pure liquid extracts of many herbal plants, which act on the stomach, liver, kidneys, bowels and enrich the blood.

All good druggists sell Dreco and it is highly recommended in this city by Page & Lorenz.

SHOT SON TO SAVE HIS SOUL; REPENTS

CHICAGO, March 24.—After shooting down his son "to save his soul," the father sat beside the dying lad's bed today and prayed that the youth's life might be spared. The boy, Frank Pinano, jr., is one of ten children and the only one whose escapades with a band of corner gangsters served to mar the happiness in the Pinano home. Several days ago the father drove him from the house but the boy's mother followed him and gave him some money. This the boy spent on his gangster friends.

Learning of it the father sought out his son in the latter's haunts and was greeted with a sneer when he upbraided the boy. The elder Pinano then whipped out a revolver and shot his son three times.

"I shot him to save his soul," he confessed to the police "I am glad, because I would rather kill him than have him murder someone and be hanged"

But today paternal love overcame everything else, and the father sat beside his boy and prayed that he might not die.

"You were right," the young man told him. "I had it coming to me."

Physicians say there is little likelihood of his recovery.

TURKS SLAUGHTER 10,000 ARMENIANS

NEW YORK, Mar. 24. — Ten thousand Armenians were slaughtered by Turks in a single outbreak 100 miles north of Aleppo, according to John Dunaway, of Swarthmore, Pa., a relief worker, who arrived today on the liner La Savoie after 18 months in Turkey. Mr. Dunaway said the massacre occurred a few days after he started home. The relief worker accused Great Britain of blocking every effort to settle effectually the Turkish question for political reasons. He said that American relief workers who tried to rescue Armenian girls from Moslem homes were stopped by British officers.

Now Comes Springtime With its Severe Tax Upon the Human System

That general rundown condition, known as "Spring Fever" is now abroad in the land

Few people are fortunate enough to escape the debilitating, dragging down condition that always comes with the changing seasons, and especially when nature is undergoing the transition from winter into springtime.

Just now there is a universal re-adjustment of every element in nature. Plant and animal life alike merge into the re-awakening that comes with the budding of springtime.

Naturally, such a decided change means a severe tax upon the elements involved. In plant life, it means that all the energy stored away for winter sustenance has been consumed, and the plant or tree must gather new forces to feed and develop it and give it strength and nourishment to enter upon the long dry heated term.

Similarly, the human body has just passed through the severest season of the entire year, and has been subject to the hardships of the winter season with all of its various attacks of sickness and disease. And even though you may have escaped the prevailing dangers and come through the winter without having succumbed to illness, still your system has been severely taxed, and all the stored up energy has been consumed in warding off disease.

The human system is now endeavoring to throw off the accumulated impurities, and your run-down condition is a mute appeal to nature for help in preparing for the changing season.

As springtime approaches, you begin to notice a loss of energy, you become easily tired out, and that worn-out, good-for-nothing, run-down feeling seems to have complete possession of your body. Your poor, tired out body has fallen a victim to what is commonly called "spring fever," and a feeling of complete lassitude pervades the entire system.

Just as plant life throws off the accumulations of the winter season, so does the human system find it necessary to get rid of the impurities that have crept in, and made the blood supply sluggish and interfered with the vigor and strength and energy that is so badly needed to enter upon the new season.

The most important part of the human system is the blood supply. It is absolutely necessary that the ever flowing stream of life-giving fluid be kept pure and rich and that no impurities be permitted to creep in to make it sluggish and impair your general health.

You should take the first indication of "spring fever" as an unfailing warning that your blood needs a thorough cleansing and toning up. Impurities that have been accumulating throughout the winter season should be eliminated, and the system put in the best possible condition to withstand the dangers of summer sickness.

Of course, you do not feel like placing yourself under a doctor's care, and there is really no necessity for doing so. Your system simply needs a good toning up, and for this purpose there is nothing equal to S. S. S., the fine old blood purifier and tonic that has been in successful use for more than half a century.

S. S. S. is nature's own remedy, being made from roots and herbs of recognized medicinal value, gathered direct from the forests. It acts directly upon the blood, promptly cleansing it of all impurities, improving the appetite, and giving new strength and vigor to the entire system.

S. S. S. gives prompt relief from so-called 'spring fever,' and a few bottles taken right now will put your system in perfect shape for the changing season.

You can obtain this fine old remedy at any drugstore. Your druggist will tell you that it is one of the most reliable remedies on his shelves. For free expert medical advice regarding your own case, you are invited to write to Chief Medical Adviser, 176 Swift Laboratory, Atlanta, Ga.

DICKERSON SALE

(Continued From Page One)

holders committee asking the court to remove the receivers has not been passed upon by the court.

The committee of stockholders is composed of James Lennon, John Wagers, I. D. Cohen, Frank W. Mowery and Frank Walker, who were duly elected at a stockholders meeting last October and fully empowered to act. They allege in their motion that J. S. Elliott and W. H. Parrish in their individual capacity bid in a large part of the property and discouraged independent bidders; that Parrish has taken possession of part of the property and commenced operation of the plant; that the property was bid in at prices below the appraised value; that some of it was bid in by Charles Parrish, a brother of W. H. Parrish; that the ice plant, machinery, etc., was bid in by J. S. Elliott at two-thirds of its appraised value or $8,200; that it is uncertain whether he bought it for himself or the Peoples Ice company, in which he owns the controlling interest.

A schedule of the property purchased by Elliott and Parrish is attached to the motion. It includes the two pieces of real estate, which sold for $8,200 and $2,925, the butter department and machinery for $1,500, an International truck for $800, milk cans for $300, butter tubs for $325, a 7½ ton motor for $125, a refrigerator for $100, a desk for $62.50 and numerous other small items.

The motion for the removal of the receivers is based upon the statement that Elliott has been president and a director of the J. L. Dickerson company and that the receivers were acting in a trust capacity and had no right to bid on the property. The motion further alleges that possession of the property was taken before the sale was confirmed by the court.

Warner M. Pomerene, of the firm of Pomerene & Pomerene, represents the stockholders' committee. T. H. Wheeler is attorney for the receivers. J. S. Elliott and W. H. Parrish stated in court that they thought they had a right to engage in the competitive bidding at the sale and that everything was open and above board. J. S. Elliott said he was bidding not as an individual but for the ice company.

ONE MAN HOLDS TWENTY MILLION VOTES IN NATION

WASHINGTON, March 24. — Votes of 20,000,000 women are held in the hand of one man today, according to suffrage leaders here.

Alfred Dupont, wealthy political and social leader of Delaware, is held by the suffragists to be the one man who can secure ratification of the suffrage amendment by the Delaware state legislature. Suffrage leaders are centering their pressure upon Alfred Dupont, who is now listed as an "anti" and they declare if he will give his support to suffrage the legislature is bound to ratify.

"The smallest state in the union is blocking the Federal Suffrage amendment," declared a statement issued by the National Woman's Party, which has heretofore never admitted even the possibility of defeat.

DANIELS BLAMED FOR HANDICAPS NAVY SUFFERED

WASHINGTON, Mar. 24. — Secretary Daniels was charged today by Captain Horace Lanning, U. S. N., with personal responsibility for the serious handicaps and delays from which the United States Navy was said to have suffered during the early months of America's participation in the World war.

Lanning's charge was made before the sub-committee of the senate naval affairs committee investigating the conduct of the committee during the war.

Lanning, who served as assistant chief of naval operations, declared, "It was the personal characteristics of the secretary of the navy that often made it impossible to get approval of the really important policies determined upon by old and experienced naval officers."

GERMANS WANT PERMISSION TO CRUSH THE REDS

LONDON, March 24.—The two German military envoys who hastened to Paris to report to the allies on the true conditions in the Ruhr district have asked the entente to authorize the German government to send 100,000 troops against the reds in the Ruhr zone, according to a dispatch from Paris today.

There is no confirmation of the report that Chancellor Bauer of Germany has asked the allies for military aid in the Ruhr district, said the diplomatic correspondent of the Daily Telegraph. He added that the allies are convinced that it would be inadvisable to intervene at this time. However, if such action is decided upon later because Germany is not fulfilling her treaty terms, particularly the delivery of coal to France, there will probably be further occupation of German soil by allied troops. In this event it is certain that the allied forces would be sent into the Ruhr district.

ATLANTA, GA., Mar. 24. — Jack Lawler, of Omaha, got the decision over Bennie Vaiger, the "French flash" of New York, in a ten round bout here last night. The latter showed considerable punishment at the end of the go. Lawler had the best of five rounds and the other five were about even. They are featherweights.

OFFICIALDOM AT WASHINGTON MUCH STIRRED BY THE SUBMARINE'S LOG

WASHINGTON, March 24—Publication of the log of the U-20 where in its commander Captain Lieutenant Schwieger in his matter of fact way, told how he had sighed and sunk the Lusitania off the Irish coast in May 1915, created a stir among officials here.

Secretary of the Navy Josephus Daniels, into whose hands a complete set of photographic copies of the tragic pages of the submarine's diary was placed by a representative of the International News Service declared

"This is certainly one of the most interesting documents brot to light since the armistice. For the first time we are permitted to read the story of the sinking of the Lusitania as told by the officer of the submarine which fired the shot. The revelations are a real addition to history."

President Wilson was presented with a separate set of the production for personal study. Secretary to the president Joseph Tumulty expressed himself as greatly interested.

Everywhere officials admitted the publication of the log of the U-20 shed new light on the subject and cleared up numerous puzzling points. For despite the most painstaking investigation conducted both in this country and abroad the sinking of the Lusitania, which cost the lives of hundreds of American citizens including many women and children, a surprising number of historical important questions had never received an answer.

Naval officers here were greatly interested in Captain Lieutenant Schwieger's charts, photographic reproductions of which were turned over to the navy department. These charts showed how the submarine dodged mine fields, destroyer patrols and other dangers from the moment she left her base at Wilhelmshaven on her death dealing voyage until her return via the north of Scotland.

While freely admitted that the U-20 probably did not set out "to get" the Lusitania, the German officer's denial that he knew the big four funneled vessel he was firing at was that ship was taken with a grain of salt by many officials here, especially those connected with the navy.

Rear Admiral William Sweden Sims pointed out that the commander of the U-20 must have silhouettes of the various sea going craft and so should have recognized the Lusitania.

Other officers declared that the Lusitania was the only vessel of her type plying the Atlantic lanes in those days, consequently Captain Lieutenant Schwieger must have known what he was doing.

"I can't comprehend how it was the submarine commander failed to recognize the Lusitania," said Secretary Daniels. "To my mind it seems inconceivable that he did not identify the vessel."

In some quarters the theory was put forward that the U boat commander recognized the Lusitania and fired, expecting her to remain afloat for hours certainly long enough for her passengers safely to take to the boats. But when he saw the big ship founder in a few minutes, dragging down hundreds of Americans with her, he became alarmed over what the consequences might be perhaps war with America, and so toned down his entries in the log as a measure of self preservation.

All Washington was reading and commenting on the log shortly following the appearance of the afternoon papers carrying the revelations.

Senator Frederick Hale, of Maine, member of the senate naval affairs committee, said:

"This settles once and for all time the contention of the Imperial German government that the Lusitania was destroyed because she carried contraband."

Captain N. C. Twining, formerly of Admiral Sims staff said:

"The story will correct a number of versions which are current. The whole story is interesting."

Senator Pittman, of Nevada, member of the senate naval affairs committee declared the information contained in the log very interesting.

"It brings out new facts," he said.

In the opinion of Senator Keyes, of New Hampshire, "It was an interesting revelation."

"This is of the greatest historical importance," said representative Thos. Butler, Pennsylvania. "The International News Service ought to be commended highly for its enterprise in securing this document and in presenting it to the people. There has been much speculation and uncertainty as to the manner of torpedoing the Lusitania."

The sets of photographic reproductions of the log's pages and navigation charts, deposited with government officials here by the International News Service are receiving study and analysis by naval experts who find in them a source of intense interest.

Aside from the historic value of the disclosures, Secretary Daniels said he considered it "a fine scoop."
